Thursday 7th May 2020

ICH Q3E (Extractables and Leachables): setting the scene

Royal Society of Chemistry, London

ICH Q3E (Extractables and Leachables) has been adopted by the ICH governing body as ICH Q3E and will now progress through the various ICH stages that will culminate as an international harmonised guideline. This meeting will be an important event in understanding and trying to influence the outcome of the ICH Q3E proceedings.

Thursday 2nd July 2020

Assuring the quality of radio-labelled products from clinical trials to commercialisation

Royal Society of Chemistry, London

The use of radiolabelled materials in clinical trial, therapeutic and diagnostic applications presents many specialised challenges to assure their fitness for intended purpose. This symposium will examine the uses of radiolabelled materials, key regulatory requirements and best practices to assure their quality in clinical trials or commercialisation.
